***“Slovenian man, woman, wherever you are, here is your foundation, base, and from here are your seeds - the origin, essence, this is your center from where is your power, potency, there is an inexhaustible fountain of your essence.”***

**Are you prepared to participate?**

**Is there anyone here that doesn't wish to be active?**

1. Stand up.
2. Place your right hand on your forehead.
3. Place your left hand on your heart.
4. Now think and realize that we think with our brain **and** with our heart, the soul.
5. Now clap your hands and realize that we are dependent on our hands.
6. Touch your legs and realize that we are depended also on our legs.

**We depend on what we think (our brain), what we feel (our heart), what we do (our hands) and where we go (our legs).**

# Courage to continue into the future

Now make a circle with your hands and realize that we are connected and depended on everything that surrounds us.

Turn to your neighbour, reach out to him, look deep into his eyes, smile and say:

**With courage and perseverance  
in collaboration with you!**
